

CALVADOS MILLÉSIME

1964

Calvados Domfrontais

Comte Louis de Lauriston

Gilbert & Gaillard - Winter 2001 - Sylvain Patard (France) :

"Very attractive bronze colour with green reflections. Complex, highly expressive nose. The fleeting aromas change from fruit into exotic wood, then into dried vegetation and spices. In the mouth, an eau-de-vie at the top of its forms; has a concentrated power and velvetiness. They are echoes of the indulgent aromas from the nose, particularly through a trio of patisserie, candied and spicy notes. A good example of successful ageing".
